

Quickstart Guide

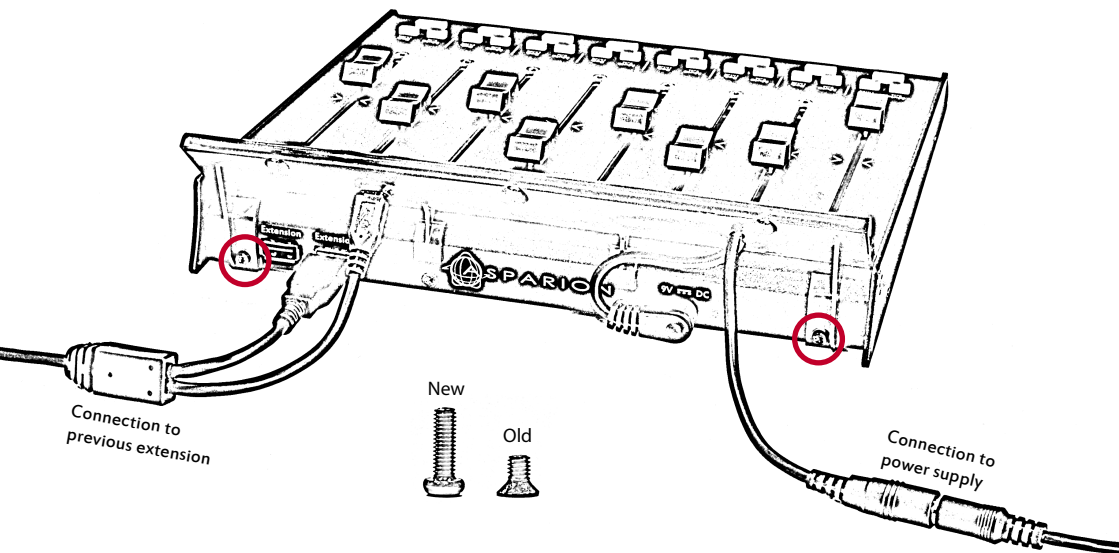

1 Mount display

- Remove old screws from D400F as shown below. 
- Put display on top of the D400F and use supplied screws to fasten.

Connect and arrange displays

2

- Connect the power supply as shown below.
- Press the button on the back of the display for about 5 seconds until the display shows eight numbers.
- Now you can assign a position number to the display by clicking the button again. Assign the same number to the display as to the D400F it is attached to.
- Wait for 5 seconds to confirm your selection. After that you can connect the new display with the link cable to the previous extension.

Already done

- Enjoy!
- Make sure your D400T has firmware version 1.15 or higher.
- If you have a problem, please do not hesitate to contact us.
