

1 Activate settings menu

- Keep the three buttons **Pan** **EQ** **Send** pressed for about 5 seconds until both the LED rings (1 and 8) start blinking.

Choose number of extensions

2

- Choose how many extensions you want to connect by rotating the left encoder (first).

3 Choose preset

- Choose which preset you want to use by rotating the right encoder (last).
- Confirm your selection by clicking one of the two encoders.
